

INTREPID

**INDUSTRY LEADING SAFETY
PRODUCTS MADE TO LAST**

Featured

PRODUCTS

Proudly manufacturing
high quality safety products
since 1978

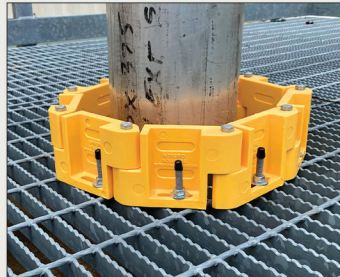

Safety Gates

- Meet or exceed all standards including OSHA, ANSI, ABS, and EN ISO standards
- Easily adjustable and installed
- No assembly required
- Unharmful by caustic and atmospheric conditions
- Gravity closing aspect removes most maintenance requirements
- Withstands extreme environments for UV and cold

Toeboards

- No hot work required for installation
- Retrofit and rework costs significantly reduced
- Flexible installation from top side eliminating scaffold requirements
- Unharmful by caustic and atmospheric conditions
- Meet or exceed dropped object requirements
- Significantly reduces grating deflection

Safety Hooks

- Dropped object and trip hazard prevention
- Non-conductive
- Will not fray or puncture cables or hoses
- Prevents tangled leads
- One hand operation
- Large weight capacity

Custom Polyurethane Products

Do you have parts that consistently rust, corrode, or breakdown in the elements? Do you have a new part and are looking for a manufacturer? Are you trying to replace a legacy part that is no longer manufactured?

We offer custom solutions in one-off, small batch and full turnkey manufacturing.

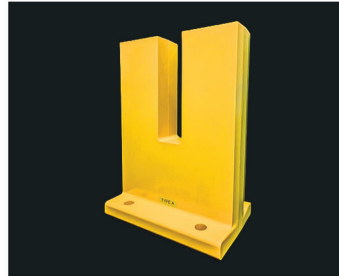

PPE Accessories

- Dropped object prevention
- Keep PPE accessible
- Custom imprinting available
- Reduces PPE costs
- Engineer grade material
- Non-corrosive and non-conductive

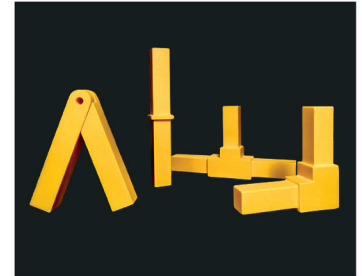

Plastics

- Resistant to chemicals and atmospheric conditions in caustic environments
- Substitute for metal, wood, ceramic and other materials
- Easily machined or cut for custom applications or field adjustments
- Capable of bearing heavy loads
- Electrical resistance
- Thick section molded parts

I. S. P. Properties

- Compressive Strength - 9,000 PSI
- Tensile Strength - 8,000 PSI
- Extreme Outdoor Weatherability - 2,000 hour QUV tested
- Flexural Modulus of Elasticity - 280,000 PSI
- Electrical Insulation
- Chemical Resistance
