# RAILING IN A RUSH

Safety needs don't wait, and neither should you. Bedford ReadyRail guardrail and handrail materials can be used on their own or to complement ReadyPlatform products for a complete safety solution.

## Applications

- Power generation
- Oil & gas
- Water & wastewater
- Cooling towers
- Industrial plants & facilities
- Food & beverage facilities
- Fertilizer & chemical operations
- Distribution & warehousing
- Much more

## BUILT TO LAST

For guardrails and handrails to safely hold up people, they first need to hold up against harsh environments and working conditions. ReadyRail prefabricated solutions are made of fiberglass-reinforced polymer (FRP), a lightweight yet incredibly strong material that won't rust, warp or corrode like metal and wood.

- Resistant to heat, high winds, rain, snow, saltwater and chemicals
- Won't shrink, swell, warp, corrode, attract insects or conduct electricity
- Lightweight for easy transport and handling
- Easy to assemble with standard tools
- Low maintenance for decades of continuous use
- OSHA and IBC compliant
- Industry-leading warranty

## Ready for Quick Shipping

ReadyRail solutions are just what they sound like — rails at the ready. They're stocked in 3' sections, or just specify the length of your railing run and we'll send you a kit to fit it. Whether you're starting new or replacing a broken rail, you'll get exactly what you need.

## Easy to Assemble

Save the welding equipment and specialized tools for other jobs. Anyone can install ReadyRail materials, which bolt together easily using ordinary tools. In most cases, the variety of sizes will give you exactly what you want, but if needed you can also easily trim components to fit using standard tools.

### CUSTOM-ENGINEERED SOLUTIONS AVAILABLE

## Limitless Configurations!

Meet the exact needs of your application.

## OSHA Compliant

Safety first, always. All ReadyRail components meet strict OSHA guidelines for worker safety. They come in standard safety yellow, and they include UV inhibitors and fire-retardant resins. Unlike metal railing, they're non-conductive for added safety. And since FRP stands strong against severe weather and corrosive environments, you get years of reliable performance.

# QUICK-SHIP OPTIONS

1 3' SECTIONS

2 RAILING KIT BASED ON YOUR CONFIGURATION

# READYSERIES

Use the entire ReadySeries lineup to meet your exact needs in short order:

ReadyPlatform | ReadyRail | ReadyLadder  
ReadyStair | ReadySpan
